ABOUT THE LECTURER

J. Daniel Gunther is a student of esotericism, mythology and religion. A member of the A. A. A. for over 35 years, he is considered one of the few genuine living authorities on Thelema. His first book **Initiation in the Aeon of the Child: the Inward Journey** has brought to the broad public for the first time the syncretic method of Magick and Mysticism as taught by the A. A. A. since its foundation, and his lectures have been proclaimed as penetrating and dynamic revelations of Thelemic doctrine. He is a member of the editorial board of **The Equinox**, the Review of Scientific Illuminism founded by Aleister Crowley in 1909 e.v.

Love is the law, love under will.
